

A All eight scans, with every reported interval and peak marked

Green bands are the reported intervals -- IV:15.94–16.61 for Slope, V:1.35–2.76 for PC1, and V:15.66–18.07, the union of the two overlapping right-arm intervals. Red lines are the published peaks at V:2.07 and V:15.93 Mb. Dashed = Bonferroni.

B Genome-wide signal sharing

Spearman of $-\log_{10} p$, strongest marker per 100 kb bin

C Evidence at each anchor marker, every trait

Dashed = Bonferroni. A trait that recovers a locus clears it here.
